PROFILE

Enthusiastic and detail-oriented Data Science student with a strong foundation in Python, machine learning, and data analysis. Passionate about extracting insights from data and building data-driven solutions. Quick learner with strong problem-solving skills and a keen interest in analytics and predictive modelling. Eager to contribute to a dynamic team and grow in a professional data science environment.

INTERNSHIP /EXPERIENCE

Data Science &AI - Scope India | (Ongoing)

July 2025–

- Developed and analysed datasets using Python, Pandas, and NumPy for data cleaning, preprocessing, and exploratory data analysis.
- Built and evaluated machine learning models using algorithms such as Linear Regression, Logistic Regression, and Decision Trees.
- Worked on data visualization using Matplotlib and Seaborn to present insights clearly.
- Implemented end-to-end data science projects, including data collection, feature engineering, model training, and performance evaluation.
- Collaborated with team members to interpret results and improve model accuracy and efficiency

PROJECTS

Online Food Store Web Application

Developed a responsive and modern online food store web application using HTML, CSS, JavaScript, Bootstrap, Python, and MSSQL. The platform focuses on a userfriendly interface with smooth navigation to ensure an efficient and seamless ordering experience across all devices. functionalities include food item listing, category filtering, cart management, order processing, and secure data handling.

AI-Based Multiple Disease Prediction System (Ongoing Project)

Developed an AI-based web application that predicts multiple diseases using machine learning algorithms. The system analyzes user health data and symptoms to provide early disease prediction and risk assessment. Implemented using Python, machine learning models, and a user-friendly interface to assist in preliminary healthcare analysis.

TECH SKILLS

PROGRAMMING LANGUAGES	:	Python, Html, JavaScript
DATA ANALYTICS TOOLS	:	Pandas, NumPy, Scikit-learn
DATA SCIENCE	:	Machine Learning
PYTHON FRAMEWORKS	:	Django
DATABASE	:	SQL(Mysql, Sqlite)
DATA VISUALIZATION	:	Power BI, Tableau, Matplotlib, Seaborn

EDUCATION

Bachelor of Science in Mathematics (BSC), 2022-2025

Mathama Gandhi College, Kesavadasapuram(Kerala University)

Higher Secondary School , 2020-2022

LMS Higher Secondary School, Thiruvananthapuram

Secondary School , 2020

Kaviyattu English Medium School, Thiruvananthapuram

LANGUAGES

- ENGLISH
- MALAYALAM
- TAMIL

DECLARATION

I do hereby declare that all the above information is true to the best of my knowledge and belief.
