PROFILE

Enthusiastic and detail-oriented Data Science student with a strong foundation in Python, machine learning, and data analysis. Passionate about extracting insights from data and building data-driven solutions. Quick learner with strong problem-solving skills and a keen interest in analytics and predictive modelling. Eager to contribute to a dynamic team and grow in a professional data science environment.

INTERNSHIP /EXPERIENCE

Data Science &AI - Scope India | (Ongoing)

July 2025–

- Developed and analysed datasets using **Python, Pandas, and NumPy** for data cleaning, preprocessing, and exploratory data analysis.
 - Built and evaluated **machine learning models** using algorithms such as Linear Regression, Logistic Regression, and Decision Trees.
 - Worked on **data visualization** using Matplotlib and Seaborn to present insights clearly.
 - Implemented **end-to-end data science projects**, including data collection, feature engineering, model training, and performance evaluation.
 - Collaborated with team members to interpret results and improve model accuracy and efficiency
-

PROJECTS

Developed an E-Commerce Website for an Online Bus Management System

Built a dynamic e-commerce–style web application for an online bus management system using HTML, CSS, JavaScript, and Bootstrap. Designed a responsive interface to ensure seamless access across all devices. Implemented key features such as bus search, route and schedule listing, seat availability, ticket booking, fare calculation, and booking summary. Focused on performance, usability, and an intuitive user experience throughout the application.

Online Food Store Web Application (Ongoing Project)

Currently developing a responsive and modern online food store web application using HTML, CSS, JavaScript, Bootstrap, Python, and MSSQL. The platform focuses on a user-friendly interface with smooth navigation to ensure an efficient and seamless ordering experience across all devices. functionalities include food item listing, category filtering, cart management, order processing, and secure data handling.

TECH SKILLS

PROGRAMMING LANGUAGES	: Python, Html, Css, JavaScript
DATA ANALYTICS TOOLS	: Pandas, NumPy, Scikit-learn
DATA SCIENCE	: Machine Learning
PYTHON FRAMEWORKS	: Django
DATABASE	: Sql(Mysql, Sqlite)
DATA VISUALIZATION	: Power BI, Tableau, Matplotlib, Seaborn

EDUCATION

Bachelor of Computer Science (BSC), 2022-2025

University Institute Of Technology Kuravankonam(Kerala University)

Higher Secondary School , 2020-2022

St Joseph Higher Secondary School, Thiruvananthapuram

Secondary School , 2019

St joseph Higher Secondary School, Thiruvananthapuram

LANGUAGES

- ENGLISH
- MALAYALAM
- HINDI

DECLARATION

I do hereby declare that all the above information is true to the best of my knowledge and belief.
